Strengths of your university

Novosibirsk State Technical University (NSTU) offers more than 120 programs of study in technical, economics and humanitarian fields at the Bachelor's, Master's, Ph.D. and post –doctoral levels. NSTU took the 11th place in the ranking of universities in technical fields of study (by the rating agency RAEX – “Expert RA” in 2012-2015). NSTU is rated as five Stars in Teaching, Innovation and Facilities by QS Intelligence Unit (“QS Stars”) in 2015. 2, 500 international students were enrolled at NSTU (9th place among universities of Russia). Graduates of NSTU receive European Diploma Supplement. NSTU participates in EU educational and research projects, including Erasmus-Mundus. The university established centers of innovation: a business incubator; student design offices, organized by the faculties; built-WIDE on the basis of NSTU centers of excellence, including educational and scientific centers and laboratories of leading firms DMG, AEG, Siemens, National Instruments, Deckel-Maho-Gildemeister, Kjellberg Finsterwalde and others. NSTU has a good infrastructure for students (clinic, sanatorium, swimming pool, sports palace, cultural center, ski-storage, 2 sports camp on the shore of the Ob Sea, and in Altai mountains.
